- Headquarters in Augsburg, Germany
- Server location in Germany, ISO/IEC 27001:2013-certified servers

**Andrea Pfundmeier &
Robert Freudenreich**

Founders of Secomba GmbH | Boxcryptor

The Cloud in 2022

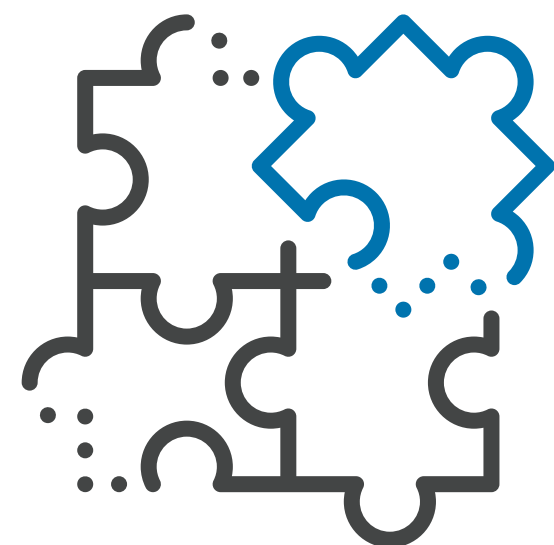

Companies around the world are struggling with the public cloud. While almost all respondents to a major study use it, most of them are also losing sensitive data due to the cloud (McAfee, 2020).

Boxcryptor allows you to flexibly use the cloud—with full control over your company data.

Your Benefits with Boxcryptor

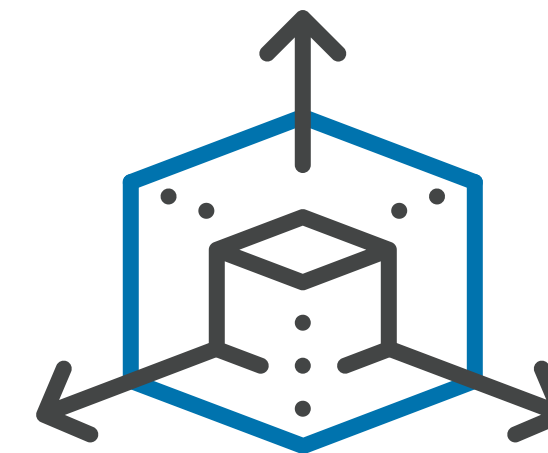

**Security through
Encryption**

**Unlimited
Collaboration**

**Simple
Workflows**

Flexibility

Enterprise-ready

Security

- **End-to-end encryption**
- **Zero Knowledge:** You have full control over your cloud
- **Two-factor authentication** for additional account security
- Unencrypted data never leaves your end devices

John Paul O’Gorman, VP Engineering at Keelvar Systems:

“ Thanks to Boxcryptor’s zero-knowledge encryption, we were sure that cloud storage was a strong asset for Keelvar, and not a potential liability.”

Our Vision

Boxcryptor was born inspired by our passion for cloud computing security and our wish to find new solutions to make our lives a little easier and more secure.

We enable people to benefit from new technology while they keep control of their data. We make complex security solutions easy to use.

User-Friendliness

Easy-to-use software, even without any IT knowledge

- Encryption of data in the background
- Keep your usual workflows, just switch to the virtual Boxcryptor drive: open, edit, save and move files just as you did before

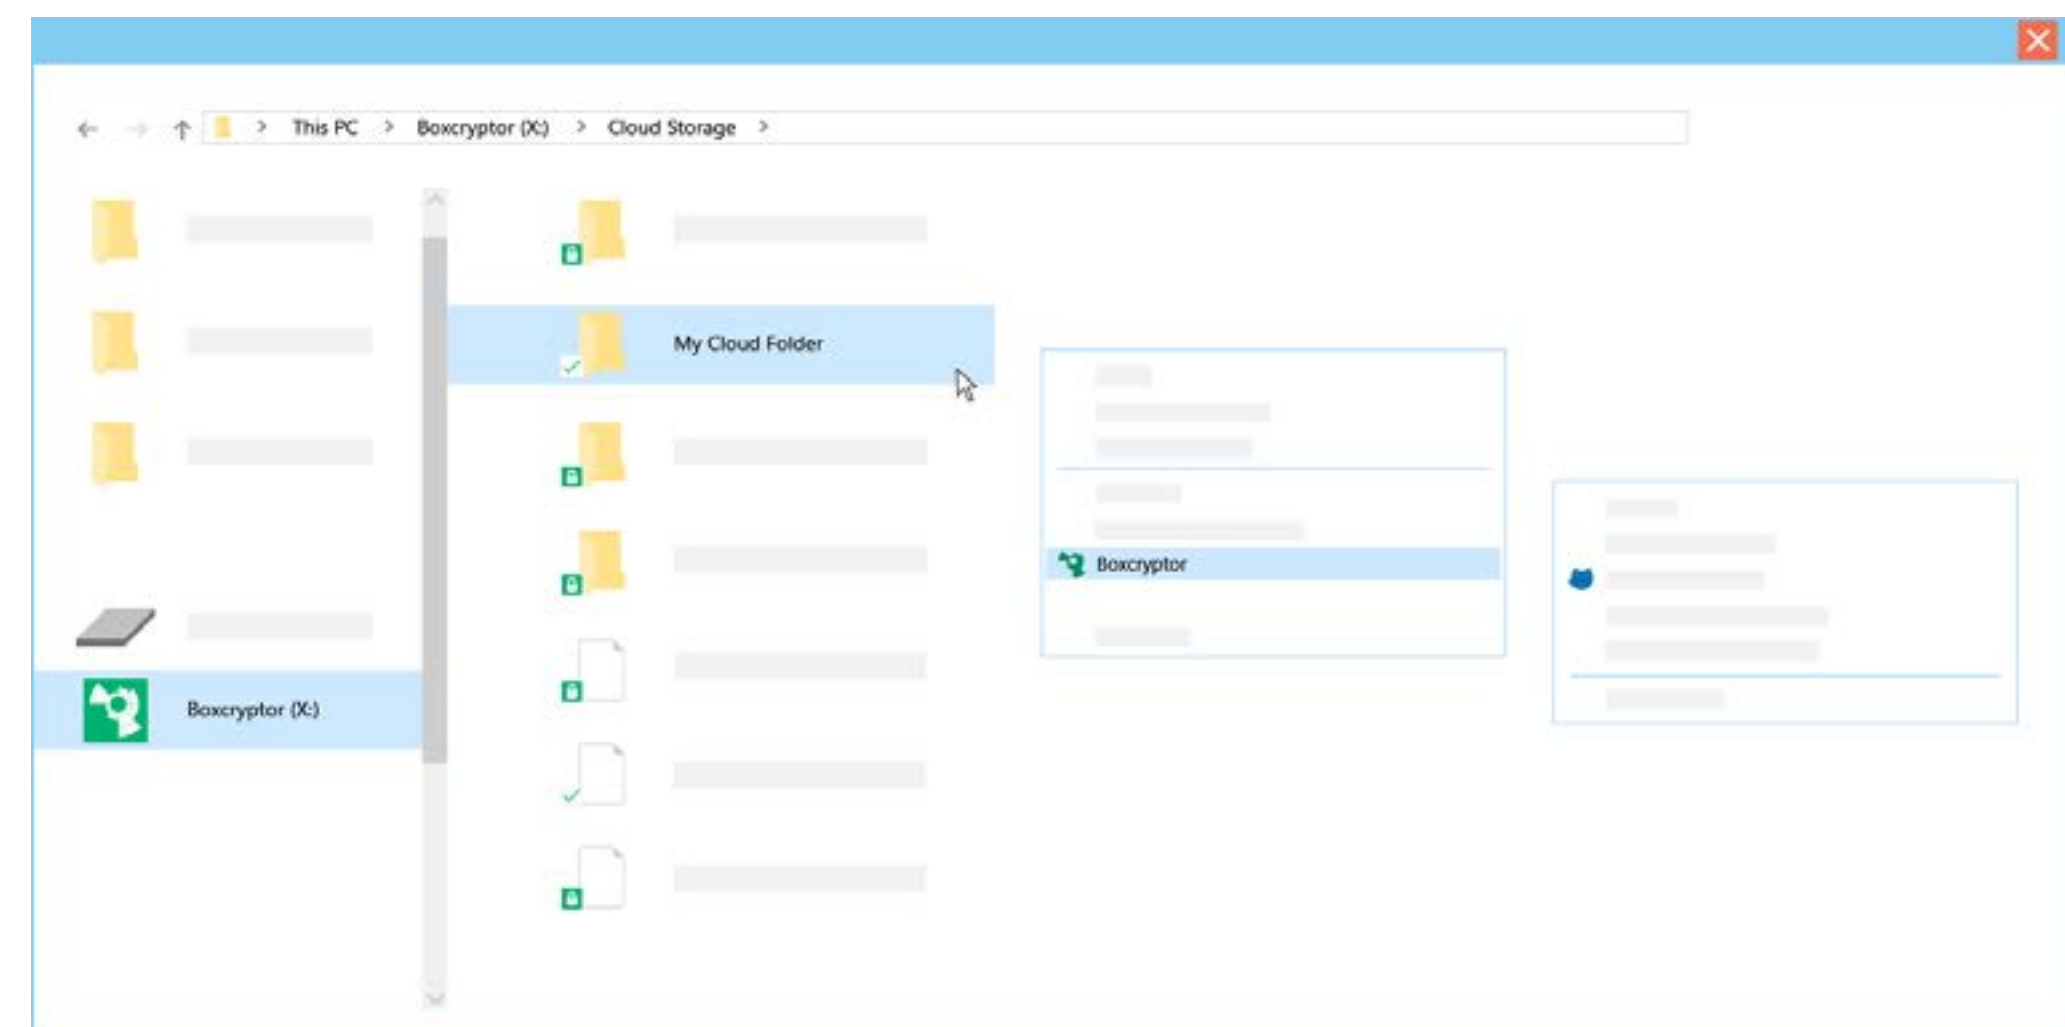

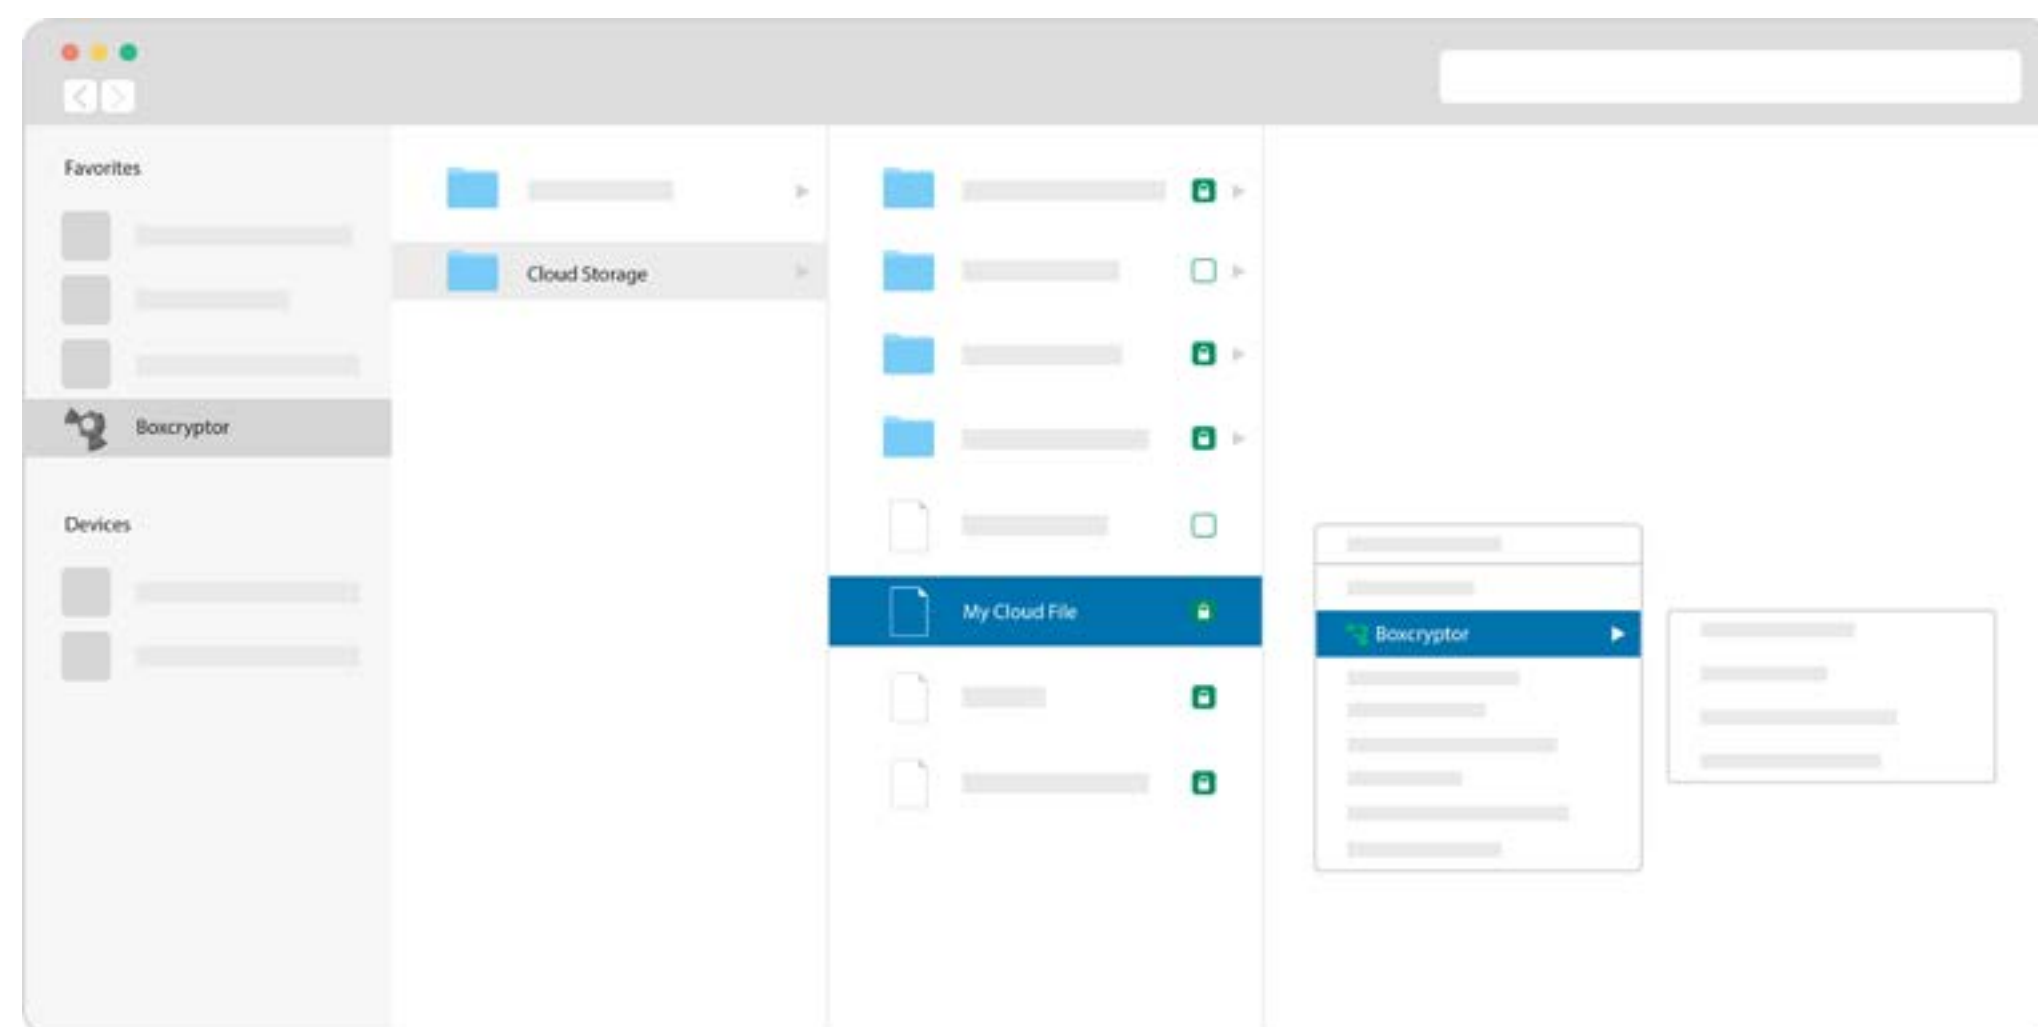

Johannes Wagner, CEO of Netplanet:

“ Even people without IT knowledge can manage Boxcryptor easily.”

User-Friendliness

Familiar Interface: The Boxcryptor Drive

- Right-click for fast and easy access of encryption features
- Encryption and sync states are visible at a glance

Flexibility

- Location-independent cooperation
- Cross-platform: Available for **Windows, macOS, iOS** and **Android**
- Over 30 supported cloud providers, plus encryption of NAS systems, USB sticks and more
- Seamless integration into Microsoft Teams
- Encryption of all file formats

Daniel Peluso, Associated Press:

“Journalists that are colleagues but live in geographically different locations can collaborate on sensitive stories using tools that Boxcryptor provides without worrying about giving up privacy.”

Cloud Storage

Supported Providers

**OneDrive • OneDrive for Business • SharePoint • SharePoint Online • Microsoft Teams •
Dropbox • Google Drive • iCloud Drive • Telekom MagentaCLOUD • Box**

Egnyte • ownCloud • Amazon S3 • LeitzCloud • GMX • WEB.de • SpiderOak One • CloudMe • Cloudwatt •
HubiC • Strato HiDrive • SugarSync • Mailbox.org Drive • Mail.ru | Hotbox • Yandex.Disk • Nextcloud •
Storegate • Nutstore • Livedrive • Dracoon

File Server • Network Drive | NAS • Local Storage • USB Flash Drive

Collaboration

- Securely save and share files
- Secure teamwork
- Integration into Microsoft Teams
- Secure communication with external parties via Whisply

Nick Dannenberg, IT Security Consultant at TU Dresden:

“ In combination with Whisply, it is also possible to exchange data with external colleagues who do not use Boxcryptor themselves. Therefore, Boxcryptor is an important component for secure collaboration across organizational boundaries.”

Easy Management

Administration

- Administrator Interface
- Auditing
- Customizable Policies

User and group management

- SSO and SCIM
- Active Directory / LDAP Sync
- Account Capture

Support and Onboarding

- Support during the onboarding process
- Dedicated Account Manager
- Phone support for enterprise customers
- Comprehensive user guides, help videos, and webinar recordings

Shai Braitner, CEO of BICI:

“ The decision to use Boxcryptor was made on the basis of the best price/quality ratio available, the great support that is offered to customers and the ease of use, of the software.

Our Customers

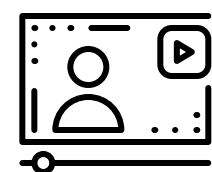

Your data is secure. While you are compliant with the GDPR and CCPA.

Boxcryptor qualifies as a technical and organisational measure (TOM) to protect your data according to the GDPR.
